Freemasons Stage Our Political Charade

'When you shake hands, the thumb naturally extends upward or straight ahead. When it points downward, you are signaling that you are a member of the world's largest satanic cult, Freemasonry, and are committed to its goal of world government under the anti Christ. Read what Stephen Knight wrote about the Masonic handshake in "The Brotherhood" (1983): "The Master Mason applies distinct pressure with his right thumb between the knuckles of the other's middle and third finger." (p. 132) Compare Larry King's recent Ahmadinejad handshake with the one of the cover of Stephen Knight's book. I know Ahmadinejad is supposed to be one of the "good guys" for many. This is just to get Americans to abandon their country. He was dealt this role. The Masons (i.e. Illuminati) control both sides of every conflict. Stephen Knight was poisoned and died just two years after publishing "The Brotherhood." What he said about British society no doubt applies to the whole world: Culture and politics are a charade quietly controlled by these disciples of Lucifer. In other words, mankind is in the thrall of a Satanic cult. Millions are complicit in their own enslavement.'
