## A Universal Declaration of Resistance to Mandatory Vaccinations

'We the undersigned, as Freeman & Freewomen, do not recognize the authority of The World Health Organization (WHO) to mandate general forced vaccinations. Our bodies are sovereign territory and subject to our exclusive self-determination. Any attempted violation of this trust must be construed as a breach of said basic right. We are thus holding our elected Governments accountable in this defense with an issuance of notice: a preemptive Class Action Lawsuit to be served in the event our inalienable rights to choose are forsaken.'
