DAVID ICKE IS A

FEMA DISASTER ACTION KID!!!

David Icke filled in the FEMA application form as follows:

Two things you have learned about FEMA:

1.) "It is a deeply corrupt organisation created to control the people by the Bush family and their network of sick manipulators."

2) In the end it won't work.

One disaster you learned about:

"The day that FEMA was created by the deeply disturbed people mentioned above."

For this insight, David was awarded this certificate by FEMA.

He is sooooo proud!

Be it acknowledged that

David Icke

has successfully completed the FEMA for Kids

official course of study and has proven to be

more knowledgeable about, and better prepared for,
all manner of natural disasters
