Navy Yeoman Tells of Seeing Photographs of 'Snake-Like', 'Reptilian-like' Entities In Top Secret File

'This is a brief video excerpt from an upcoming 90-minute Earthfiles Vodcast about an aerial disc technology described by government documents as "interplanetary;" military attacks and disc retaliations; and the strict American policy of denial about the disc intelligences in the interest of national security.

Thomas Colman Sheppard entered the U.S. Navy in September 1975. One year later on Thanksgiving night, 1976, Sheppard and two other Navy men saw photographs and documents in a TOP SECRET/MAJIC file about extraterrestrial biological entities.'
