Shapeshifting Father Bush?

There has been much discussion on the David Icke website forum about images of Father Bush on YouTube. This is the introductory YouTube blurb:

'You can't miss it, watch it happens clearly and repeatedly ... Don't wuss out , I know it's hard to believe but it is reality staring you in the face ... with slit eyes! This can't be denied unless you are blind or evil! I wasn't very surprised but if you don't get chills maybe you are not human. Spread, tell, copy ... this is history to be made.'
