THE REAL LIFE "JOHN WAYNE" …

… MURDERED BY THE STATE

The David Icke Newsletter Goes Out Over The Weekend

'This is a tale that should be compulsory reading for anyone even contemplating a "career" in the military anywhere in the world and anyone who believes for a nano-second that by doing so they are serving their country and bringing "peace" to the planet.

We have John Wayne to thank to a large extent for selling this ludicrous view of military life to so many Americans. Wayne played the role of recruiter-in-chief for the cannon-fodder killed and maimed in war after war since he donned his wardrobe beret, had his face dabbed with make up, and bravely stood unbowed, chin up, chest out, as the fake bullets echoed through the movie set. If real bullets had been involved in a real war "Big John" could no doubt have cancelled the colon cleanse.

Wayne was an enthusiastic member of the Order of DeMolay, the Freemasonic youth organisation that also produced Bill Clinton, and became an active Freemason. While millions were dying in a Second World War that he would later make a fortune from inaccurately portraying, Wayne was creating the Motion Picture Alliance for the Preservation of American Ideals in 1943. The "Duke" majored in irony.'
